7.0 Expense Eligibility Reimbursement Requirements

7.1 Alcoholic Beverages

The cost of alcoholic beverages generally cannot be charged to the Hospital, unless in exceptional circumstances, there are external parties present and a bona fide business reason for the event. Where an exception is approved for alcohol as an expense to support a bona fide business need, alcohol costs must be moderate and alcohol must be provided in a responsible manner. Refer to the Alcohol Policy for requirements when serving alcohol on Hospital premises.

7.2 Hospitality

Hospitality is the provision of food, beverage, accommodation, transportation and other amenities paid out of public funds to people who are not engaged to work for SickKids, other hospitals, universities or other designated BPS organizations, and Ontario Government Ministries and Agencies (Ontario Public Services ["OPS"]). Hospitality is permitted for events attended by external non-BPS/OPS guests to advance SickKids' business, including, for example, receptions for dignitaries, donors, or volunteers.

Staff recognition and engagement events are not considered social events (see Section 7.6).

7.4 Catering

All catering for meetings and events held onsite at any SickKids locations must be ordered through the SickKids' internal catering. Please refer to the Catering Service Policy prior to making a purchase to ensure compliance is met. In exceptional circumstances when internal catering is not available, external catering must be approved by the Director of Nutrition and Food Services.

7.5 Business Meetings

Reimbursement of meals (moderate food and non-alcoholic beverages) for meetings with internal staff or other BPS/OPS guests is permissible where the business meeting occurs over the timing for breakfast, lunch or dinner and the budget is available.

7.6 Staff Recognition and Engagement Events

Staff recognition (e.g. retirement tea or project celebrations) and engagement events (e.g. trainee welcoming event or team building) are reimbursable expenses, provided that they are appropriately modest, fit the circumstances and have budget approval.

7.7 Gifts of Appreciation

Token gifts of appreciation, valued at up to \$100, may be extended to staff and volunteers. The token gifts to staff must be in recognition of a business-related activity such as a retirement, or extraordinary contributions like annual student awards or poster prizes. It is recommended that such gifts be purchased at a SickKids' retail establishment or through the SickKids Foundation Smile program or on-line gift program. Gift cards for LCBO are not permitted and will not be reimbursed, please see refer to section 8.1. Awards with monetary value of greater than \$100 must be processed through payroll. Honorariums are not subject to this Policy.

Cash or cash equivalent gifts that exceed a cumulative monetary value of \$500 per calendar year per employee are considered taxable income. Gifts for life occasions will not be reimbursed. Bereavement flowers are subject to manager approval; donations are eligible.

7.8 Expenses for Consultants and Other Contractors

In accordance with the BPS Act and Directive, in no circumstances will consultants and other contractors be reimbursed for any incidental, hospitality, or food expenses, including meals, snacks, beverages, gratuities, laundry or dry cleaning, valet services, dependent care, home management, or personal phone calls. Reimbursements for allowable expenses (e.g. travel and accommodations) can be reimbursed only when the contract specifically provides for it, and the expenses claimed do not fall into any of the prohibited categories set out above.

7.9 Incidental Travel Expenses considered for reimbursement

Expenses that may be considered for reimbursement with approval by the appropriate signing authority include:

- Transportation to and from the airport at the destination.
- Transportation to and from the airport at home or in its place km rate for use of personal car.

 - 10% on a taxi or equivalent rideshare fare.
- Additional expenses, not otherwise covered, such as business calls, air/rail phones, computer access charges, photocopying, internet connections for business use, rental and transportation of necessary office equipment, provided the charges are incurred while conducting SickKids business and are consistent with the principles of this Policy.

8.0 Perquisites

Perquisites shall be reimbursed in accordance with this Policy but only as permitted by the [Hospital's Perquisites Policy](#) → .

9.0 Travel – Staff

9.1 Approval for Travel

All travel must support business objectives, be necessary and economical, and requires prior approval. For all travel within North America, the approval may be written (e-mail approval) or by completing the travel authorization form in myFinance, depending on the circumstances or requirements of third-party funders. For travel outside of North America, the Travel Authorization form in myFinance is required. All travel outside of North America requires approval by the Executive Director Research Operations, Chief, VP, EVP or CEO. Approval for international travel for staff supporting SickKids International (SKI) business should be approved by the staff member's Director or Executive Director in addition to and prior to SKI management.

For further information on international travel, refer to the [International Travel policy](#) → .

SickKids accepts no responsibility for use of this material by any person or organization not associated with SickKids. A printed copy of this document may not reflect the current, electronic version on the SickKids Intranet. Use of this document in any setting must be subject to the professional judgment of the user. No part of the document should be used for publication without prior written consent of SickKids.

9.2 Approval for Recurring Travel

Staff who, as an integral part of their job, have assignments that require recurring travel (for example, members of organizations or committees or research/patient care collaboratives) require pre-authorization for such travel. If the Travel Authorization is approved, the claimant does not require additional approval for each trip.

9.3 Meals for Self - Within Canada, United States and Mexico

The Hospital requires that all expenses being submitted for reimbursement for meals for self while travelling be reasonable and exclude alcoholic beverages. The maximum allowable reimbursement is \$80 CAD per day in Canada and \$80 USD per day in the United States and Mexico. These maximum allowances are inclusive of taxes and gratuities. A gratuity for meals of up to 18% on a restaurant meal is allowed. Detailed itemized receipts in addition to credit card receipts are mandatory for reimbursement.

Where a third-party funder provides for per diem meal allowances, such a per diem will be reimbursed in lieu of actual meal costs.

9.4 Meals for Self – Incurred outside of Canada, United States and Mexico

For travel outside Canada, the United States and Mexico, the claimant will be entitled to the daily rates per location as specified in the [‘National Joint Council Travel Directive, Appendix–D - Allowance–s - Module 4’](#). If no daily rate is specified on the National Joint Council, the maximum reimbursements outlined in 9.3 apply. Where a third-party funder provides for per diem meal allowances, such a per diem will be reimbursed in lieu of actual meal costs.

9.5 Travel Agencies

Since there are significant service fee costs associated with using travel agencies, claimants are encouraged to minimize their use. Staff should ensure that the company they are booking with is a Travel Industry Council of Ontario (TICO) registered company. This ensures access to the Ontario Travel Industry Compensation Fund in the event of bankruptcy or insolvency of the travel retailer, airline, etc.

9.6 Air Travel

Subject to the specific exceptions set out below, the general rule is that all travel will be in economy class and individuals shall adhere to the principles of this Policy when making their travel arrangements. Staff are advised to: select the most economical fare available, avoiding separate add-ons like baggage unless necessary; book travel at least two weeks in advance when possible, and; not book basic fares, as they are non-refundable and non-transferable. Seat selection is not reimbursable unless medically required. Where travel expenses are being paid for by a third-party funder whose expense rules permit travel by business class, business class travel is permitted. Exceptions for business class travel require pre-approval using the Travel Authorization form in myFinance.

A claimant who wishes to upgrade from economy class may do so at their personal expense. In such situations, the claimant must provide a quote with the amount of the economy class transportation, and that amount will be reimbursed. If there is a personal stop-over during the trip, the claimant must provide a quote with the costs without the stop-over. If the cost without the stop-over is less than with the stop-over, the claimant must reimburse SickKids the difference. If the cost with the stop-over is less than or equal to without the stop-over, it will be a fully allowable expense.

9.7 Airport Shuttle or Taxi/Rideshare Service

Taxi fares related to Hospital business are an allowable expense. Airport shuttle services, rather than taxis or equivalent rideshares, should be used whenever possible and convenient to and from airports. Sharing taxis or airport limousines may be feasible when multiple business travelers are going to, or coming from, the same location. Please refer to the [SCPDF Guidelines](#) if you are submitting a taxi expense funded by SCPDF for restrictions.

9.8 Parking

Parking expenses related to off-site business are allowable with a detailed receipt (not required for metered parking). Parking on SickKids premises will only be paid in accordance with the [Parking Voucher Policy](#) ==> .

9.9 Rail Travel

Coach class is the standard. Business class is acceptable when there is an appropriate reason (e.g. access to the internet, to reduce costs on accommodation, for health and safety reasons).

9.10 Personal Vehicle

A staff member who uses a personal vehicle for official hospital business trips will be reimbursed at the established rate of \$0.61/km, effective for travel. Vehicle expenses, including gas, tolls, repairs and maintenance, are included in this mileage rate. When a private vehicle is used strictly for personal convenience and such expenses exceed the costs of equivalent public transportation / economy airfare, only the cost of such equivalent transportation will be reimbursed. The reimbursable amount will be the lesser of the mileage calculation or the equivalent economy airfare or other transportation method. All staff must be compliant with the Hospital's Policy on [Personal Vehicle Use by Staff for SickKids Business](#) ==>  prior to using a personal vehicle for business use.

9.11 Car Rental

In some circumstances, the rental of a pre-approved car may be considered necessary. Such rental must be based on the most economical size of vehicle for the required task and number of occupants. Collision Damage Waiver and Accidental Death and Dismemberment Insurance and Third-Party Automobile Insurance, Property Damage Insurance and Personal Injury Liability Insurance coverage must be purchased. Claimants must purchase fuel for vehicle rental (to be re-fueled prior to vehicle return). Fuel receipts are acceptable expenses for rental cars only.

9.12 Insurance

Travel cancellation insurance is an allowable expense when accompanied by a detailed receipt. No other form of travel insurance will be reimbursed, including medical insurance. Where a bundled insurance package is purchased, only the amount that would pertain to cancellation insurance may be claimed.

9.13 Accommodation and Receipt Requirements

SickKids will pay for accommodation in a standard room. No reimbursement will be made for suites, executive floors and concierge level or luxury accommodation. Preferred hotel accommodations for conferences should be at the host hotel or at a comparable rate from another hotel.

Private stays with family or friends have a maximum reimbursement of \$50 CAD per night for gratuitous lodging expense, as per the posted rate from the National Joint Council Travel Directive website.

Cancellation charges resulting from failure to cancel guaranteed hotel bookings prior to the hotel's deadline for cancellation without penalty are the claimant's responsibility and will be reimbursed only in exceptional circumstances. Additional accommodation expenses incurred due to exceptional or emergency situations may be reimbursed with the approval from the appropriate Executive Director, Chief, VP, EVP, or CEO.

10.0 Third Party Including Contractors and Consultants

To support the expense reimbursement claim, third-parties shall adhere to the same travel limits and conditions set out within sections 9.5, 9.7, 9.9, 9.10, and 9.12, and 9.13 of this Policy.

11.0 Expense Administration

©The Hospital for Sick Children ("SickKids"). All Rights Reserved. This document was developed solely for use at SickKids. SickKids accepts no responsibility for use of this material by any person or organization not associated with SickKids. A printed copy of this document may not reflect the current, electronic version on the SickKids Intranet. Use of this document in any setting must be subject to the professional judgment of the user. No part of the document should be used for publication without prior written consent of SickKids.

The Accounts Payable Department oversees all reimbursements and related inquiries. Expense submissions are subject to random audits to ensure compliance with this Policy.

11.1 Submission Deadlines

Expenses for P-Card transactions and out-of-pocket charges must be submitted for reimbursement prior to the month-end in which the expense was incurred. In situations where this is not feasible (if the expense is incurred at the end of the month), expenses must be submitted within 45 days of when the expense was incurred.

11.2 Personal Expenses

Personal expenses include costs which are not a necessary consequence of travel or other business on behalf of the Hospital and will not be reimbursed. These include service charges related to late payment of credit card charges, parking/traffic fines, entertainment-related activities not associated with hospital duties (in room movies, etc.).

When arranging personal travel in conjunction with business travel, staff members are required to use their personal credit cards. Whenever possible, costs of personal travel should be billed separately. In cases where separate bills are not possible, they must be clearly shown as reductions on the expense report.

11.3 Managerial Discretion

For the purposes of this Policy, managerial discretion is the administrative authority to make decisions and choices with some degree of flexibility, while maintaining compliance with the intent of the Policy. There is no discretion to depart from the principles of this Policy.

When a situation arises and discretion needs to be exercised, approvers should consider whether the request is:

- Able to stand up to scrutiny by the auditors and members of the public;
- Properly explained and documented;
- Fair and equitable;
- Reasonable;
- Appropriate; and
- Consistent with the Act and the Directive.

11.4 Maintenance of Supporting Documents

Claimants must maintain original receipts for a period of 6 months. The Hospital receives thousands of receipts every year in processing travel and expense claims. In an effort to reduce paper and improve the management of records, the Hospital has decided to store electronic images of receipts, instead of original paper receipts. The process of scanning and maintaining electronic images of receipts must comply with the requirements described in sections 6.2, 6.3 and 6.4, and must be consistently integrated into the Hospital's day-to-day business to ensure that images will be admissible in court and acceptable in an audit. Accountability for this scanning process will rest with the Chief Financial Officer.

Scanned documents will be maintained for a period of 7 years, except for external funding agreements whereby scanned documents will be maintained for a period of the life of the funding agreement plus 5 years. It is the responsibility of both the approver and the claimant to work out appropriate arrangements which would meet these requirements.
